

## HELPING NONPROFITS UNLEASH THE POWER OF QUICKBOOKS®

If you use QuickBooks for **Transaction Processing** only, you are using *one-quarter* of the power of your accounting system. NonProfit leaders integrate QuickBooks to automate their bookkeeping functions.

Smart, **Data-Driven Decisions** are possible if you know the advanced features of QuickBooks. Actionable financial intelligence from forecasts, KPIs and management reports can help you grow faster, improve cash flow and raise more money!

*"It's hard for a nonprofit organization our size to afford professional accounting staff. You can't pay the same salary and get the level of talent that GrowthForce can deliver."*

- Lynette Wallace, Executive Director  
The Orange Show Center for Visionary Art

## Reports that Increase Outcomes and Drive Donors

It's harder to run a nonprofit than it is to run a business. There's more compliance, fewer levers to pull and a board looking over management's shoulders. This matrix shows the financial management reports to drive nonprofit decision-making.
